

Oyster River Hornpipe

American Veteran Fifer

Fife

The first three strains of the Oyster River Hornpipe are written in treble clef, G major, and 2/4 time. The first strain consists of 8 measures. The second strain is 8 measures long and includes a repeat sign. The third strain is 8 measures long and also includes a repeat sign.

Some fifers change keys in the second strain, though this is *not* what is found in AVF.

The second and third strains of the Oyster River Hornpipe are written in treble clef. The second strain starts in G major and changes to A major. The third strain is 8 measures long and includes a repeat sign.
